Motor vehicle mechanic courses for PPS Motors	744	627	1 or 2 yr

ठळक मुद्दे · WHAT STANDS OUT

- No ITI seats in this district for: chemical plant courses, fire and industrial safety. Young people would have to train in another district, or employers train on the job.
- Seats left empty in 2024: fitter and machine-tool maintenance, 869 joined for 1,272 seats; welder, 961 joined for 1,780 seats.
- Jobs with no ITI course: assembly operators, quality inspectors. These usually go to 10th/12th pass youth or any ITI holder, trained on the job.
- Chemistry graduates (B.Sc) are also needed; colleges are not yet in this note.

* Our estimate. Job numbers are our estimates from typical staffing of similar plants (direct and contract together), not company figures; hiring timing is from our test of 2024-26 projects. Openings are tracked daily by Provenexa from public sources; dates are the dates they were reported. Seats = first-year seats sanctioned for the 2024 admission round, government and private ITIs together; joined = trainees admitted in 2024. One-year courses admitted in 2024 finished around mid-2025; two-year courses finish around mid-2026. Source for seats: DVET Maharashtra, ITI Statistics 2024, the latest year published. Matching jobs to trades is ours and approximate.
